

Mountain Lakes District Water Committee Report for September 2016

This report covers the activities during September and the monthly meeting of September 1st.

Status: Draft as of 10/4/16 – Reviewed as of 10/6/16– Approved as of – 11/3/16

Mountain Lakes District Water Committee Meeting of 9/1/16

Meeting was held from 8:10 AM to 9: 00 AM on 9/1/16. Attendees: Bob Long, Don Drew, Peter Olander, Ken King and Tony Salvucci.

Water Status:

During the month of September a major leak was found and repaired in the Lakeside and Roudebush Loop area. Another leak was found on Swiftwater Circle. Once that is fixed we should be back to our normal flow for this time of the year.

Master Plan Update:

I am waiting for a revised schedule for the update and an idea on how to organize the information.

Conolle property/spillway:

We have made it clear to the owner that we will be doing maintenance work on the spillway as required by the state and allowed for within the lease for that lot.

Lower Dam Project:

Horne has done the work. The amount (\$7140) will be taken from the money we are holding on to until the project is completed and approved by the state.

Nobis Engineering – Water Sourcing

There will be some additional wells drilled in the Lodge area. This will be paid for by the State MtBE remediation funding.
