

## **Mountain Lakes District Water Committee Report for February 2017**

This report covers the activities during February and the monthly meeting of March 2<sup>nd</sup>.

Status: Draft as of 3/4/17 – Reviewed as of – 3/13/17 Approved as of

### **Mountain Lakes District Water Committee Meeting of 3/2/17**

Meeting was held from 8:09 AM to 8:45 AM. Attendees: Bob Long, Don Drew, Ken King, and Scott Clang from GSRWA.

#### **Water System Update:**

A sinkhole had opened up on Swiftwater Circle in the area of the leak. The plan was to dig that area up starting at 9:00 the day of the meeting. The very good news is that the leak was found and repaired that day!

We discussed and approved the installation of a new Soft Start system in the pump house. It will serve as a backup for the current one.

#### **Water Meters:**

We selected a meter to be used for in home use. It is powered by a 20 year battery and broadcasts the information via radio.

We had a general discussion of the issues is going to a metered system. When we find a new source, we will need a permit from the state to make it a production well. Scott Clang believes they may require the system to be metered before the permit will be issued.

#### **Master Plan Update:**

Ken attended the February Master Plan Meeting. There are a few additional changes to be made.

#### **Conolle property/spillway:**

The sale should be completed at the next Haverhill Planning Board meeting.

#### **Lower Dam Project:**

Don Drew has been inspecting the Lower Dam Outlet Barrel and to date everything is good. All inspection reports are in the office.

#### **Nobis Engineering – Water Sourcing**

Nobis has submitted a plan to the state to use ground searching radar to see if there is anything buried in the area around the one well with MtBE issues.

#### **Other:**

We approved the January Water Committee report.
